

A 4-H Project: More than a Fair Entry

4-H project-based learning provides a place for youth to explore their interests and passions — or what we like to call their sparks! Youth learn from caring adult volunteers, or in some cases through self-guided study, in projects in areas such as science, health, agriculture, and citizenship. Screened adult volunteers provide a safe and positive environment where youth learn by doing. Young people thrive through 4-H participation, finding their way to success in life and career.

Careful consideration should be used when selecting a 4-H project to enroll in for the year. A 4-H project has five components: Learning Experiences, Leadership, Citizenship, Exhibition, and Record Keeping. An explanation of each component can be found below. These five components can all be found along the [Kansas 4-H Learning Pathway \(4H1131\)](#).
